## Resume

### Objective

I am a motivated and detail-oriented Computer Science student specializing in Big Data Analytics with a strong foundation in programming, database management, and problem-solving. Willing to apply technical and analytical skills while gaining hands-on experience and contributing to innovative projects. Eager to leverage academic knowledge and professional experience in support and teamwork to drive meaningful impact in a dynamic technology environment.

### Education

#### **Grand Canyon University, Phoenix, Arizona**

B.S. in Computer Science, Emphasis in Big Data Analytics

Expected Graduation: June 2026

GPA: 3.5

#### **Groupe Scolaire Couer Immaculee de Marie du Rwankuba, North Province, Rwanda**

Advanced Level Certificate in Mathematics, Physics & Geography

Graduated: July 2021

### Skills

**Programming Languages:** Java, C#, C++, HTML, CSS, Python

**Database Management:** MongoDB, MySQL

**Tools and Technologies:** Git, .NET, Visual Studio, Sublime, Eclipse

**Other Skills:** Adobe Photoshop (Photography), Adobe Premiere Pro (Videography)

### Job Experience

#### **Direct Support Professional, Sevita Health (August 2023 – Present)**

Provide emotional support, companionship, and assist with medical appointments and errands. Maintain health records, manage crises, and implement healthcare strategies to improve client well-being.
